

PATIENT CENTERED CARE:

The “Do-it-yourself” health consumer has seen an explosion in medication treatment options from an increase in over-the-counter treatments, to information overload from consumer channels, news stories and the internet providing more choices than ever in treating your health conditions. Yet not every product is appropriate for everyone.

While having more options than ever is good, having the right advice for safe, effective, health care solutions is critical. At **Patton Pharmacy** we operate under the definition of Patient Centered Care. This means as your pharmacy we take into consideration the patient’s current medications and treatments, personal preferences and values, their family situations and their lifestyles. It makes the patient and their family an integral part of the health care “team”. Patton Pharmacy believes special considerations must be given to patient needs to ensure you as the patient are receiving the right medications, treatments, and immunizations necessary to lead a healthy life!

For expert advice see **Patton Pharmacy**.
Your Friends for Life.

WHAT IS THE PATTON PHARMACY DIFFERENCE?

Local Health Resource — Having a *local* resource for professional health care is critical for good health maintenance. Imagine for a moment a family member has just developed a medical emergency. Have you ever tried to contact a person located in a large complex 2000 miles away? At best you’ll have to leave a message on a machine. But with **Patton Pharmacy** on your side your healthcare expert is available whenever you need them.

SPECIALIZED SERVICES:

Refill Reminder Program — Insures your maintenance medications are filled and ready for you when need them avoiding long store lines.

Periodic Medication Reviews (MTMS) — This program helps us work with your doctor to make sure you are receiving the most effective and economical treatment for your condition. Thus reducing your out of pocket expense.

Special Packaging is available if needed so that you or someone you are taking care of receives medication at the right prescribed dose and time.

- Home Delivery if needed
- Immunizations
- Snowbird Program — Receive your medication where ever you go away to for the winter.
- Full Line of Home Health Accessories to make your day to day living easier
- A Ten Year History Maintained on Computer for Personal or Tax Use
- 24-hour emergency service

Patton Pharmacy began serving the community in 1974.

Since that first year, **Patton Pharmacy** has supported local Youth, Civic and Charitable Organizations. We believe a community is only as strong as the support its members provide.

Patton Pharmacy is proud to be the local pharmacy neighbors depend on for good health.

We’re Your Friends for Life.
